STEP TOGETHER

HOLIDAY GIFT GUIDE

The season's best gifts
produced by Step Together's
individuals with special
needs.

A collage of natural and handmade items. In the foreground, there's a wooden surface with a white wooden cutout of a bear's head and two dark wooden cutouts of figures holding hands. Above this, a piece of burlap fabric is visible. In the middle ground, there's a white lace doily on a green burlap background. To the left, a piece of sheer fabric with green circular patterns is tied with a light-colored ribbon. In the background, there are green artificial plants and a green star-shaped tag with white snowflake patterns.

Step Together Association aims to ensure the implementation of a holistic approach in therapy, independent living skills, care and the education of children and adults with intellectual and developmental disabilities. It follows Rudolf Steiner's principles of education by learning to have a deeper understanding of the human being as a whole in the development of social, ecological, economic, medical, spiritual and educational aspects.
